Hoof Aid PLUS

The Ultimate Hoof Supplement for Horses

Presentation: 3kg

Feeding Instructions:

All horses:

Feed 50g (1 heaped scoop) per day.

Ponies and foals:

Feed 50g every second day.

For best results it is recommended to feed Hoof Aid Plus for 180 days. New improved growth will be evident near the coronary band after just one month.

Composition:

	<i>per 50g</i>	<i>per 1kg</i>
Methionine	6,000mg	120,000mg
Calcium	5,105mg	102,108mg
Zinc	600mg	12,000mg
Copper	120mg	2,400mg
Biotin	37.5mg	750mg
Glutamic Acid	1,465mg	29,300mg
Arginine	650mg	13,000mg
Asparic Acid	625mg	12,500mg
Glycine	455mg	9,100mg
Leucine	395mg	7,900mg
Serine	375mg	7,500mg
Proline	340mg	6,800mg
Lysine	335mg	6,700mg
Alanine	295mg	5,900mg
Phenylalanine	285mg	5,700mg
Threonine	235mg	4,700mg
Tyrosine	220mg	4,400mg
Valine	215mg	4,300mg
Histidine	200mg	4,000mg
Isoleucine	170mg	3,400mg
Cystine	95mg	1,900mg

Hoof Aid PLUS contains all the supplemental nutrients required to develop and maintain a healthy and supple hoof in a convenient daily 50g serving. It contains high levels of Biotin (37.5mg per 50g serving) and Bioavailable Sulphur, which are essential for the durability and integrity of Keratin Sulphate that provides the structural matrix to the hoof. It also contains high levels of Zinc, which is a component of many metalloenzymes involved in protein metabolism, and is important for healing of all epidermal tissue. It is a rich source of amino acids, which are the building blocks for protein, as well as Calcium, essential for cohesion of the hoof wall. It's pelleted presentation is ideal for picky eaters, and is convenient for feeding in big yards with just a single scoop daily serving.

Glucosamine

*Concentrated Glucosamine Hydrochloride
Over 99% Pure*

Presentation: 1kg

Glucosamine is a concentrated form of Glucosamine Hydrochloride - over 99% pure. Glucosamine is a naturally occurring non-toxic molecule which is essential in the production of cartilage, joint fluid, tendons and ligaments. Glucosamine is a daily feed supplement for the nutritional maintenance of healthy cartilage and joints.

Feeding Instructions:

All horses:
Feed 20g per day for 4 weeks
thereafter feed 10g per day.

Analysis:

contains over 99% Glucosamine Hydrochloride

Gastric Ulcer Supplement

*For the Symptomatic Relief of
Equine Gastric Ulcer Syndrome*

Feeding Instructions:

All Horses: Feed 100g per day,
÷ between the number of feeds.
For example, Horses fed
3 times daily – add 33g per feed.

Ponies & Foals: Feed 50g per day,
÷ between the number of feeds.

1 heaped scoop provided
with the product = 33g

Additives: per 33g

Binders – Kaolin (E559) 4,950mg,

Stabilizer – Sodium Alginate (E401)

3,333mg,

Threonine 1,573mg

Composition: per 100g

Aspartic Acid	0.9g
Serine	0.47g
Glutamic Acid	4.92g
Glycine	0.37g
Histidine	0.2g
Arginine	0.45g
Alanine	0.34g
Proline	0.44g
Cystine	0.11g
Tyrosine	0.3g
Valine	0.25g
Methionine	0.09g
Lysine	1.08g
Iso-Leucine	0.22g
Leucine	0.55g
Phenylalanine	0.44

Presentation: 3.2Kg

Gastric Ulcer Supplement (GUS) is a unique supplement, for daily feeding to horses prone to gastric disturbances. GUS will assist in maintaining optimum gut health and function, allowing maximum utilisation of feed. GUS supplies a unique formulation of prebiotics, amino acids, seaweed extract and specific minerals necessary to aid in the recovery and maintenance of a healthy digestive tract. It is sold in a convenient pelleted formulation.

Haemo-Tonic

*Premium Iron Enriched B Vitamin Syrup
for Optimum Health and Performance*

Presentation: 1.183L

Haemo-Tonic a premium Iron Enriched B Vitamin syrup. It also contains Sorbitol, which enhances the serum concentrations that result from the oral administration of Vitamin B12.

Competition horses need dietary supplementation of B complex vitamins and Iron, as these nutrients are needed for red blood cell formation and important metabolic functions relating to exercise. Haemo-Tonic will supply these nutrients to fortify and strengthen performance horses, which will ensure that their full athletic potential is expressed in competition.

Haemo-Tonic is an excellent appetite stimulant for fussy eaters and horses recovering from surgery.

Feeding Instructions:

To be added to the normal feed.
All horses & large ponies:
Feed 30ml twice daily.
Small ponies, yearlings & foals:
Feed 30ml once daily.

Composition:	<i>per 60ml</i>	<i>per 1L</i>
Niacin	200mg	3,333mg
Elemental Iron	150mg	2,500mg
Vitamin B1	150mg	2,500mg
Vitamin B2	75mg	1,250mg
Vitamin B6	50mg	834mg
Folic Acid	20mg	333mg
Cobalt	1.5mg	25mg
Biotin	0.5mg	8mg
Vitamin B12	300mcg	5,000mcg

Analysis:

Moisture 58.5%, Crude Protein 1.26%,
Ash 0.4%, Total Fat <0.5%, Crude Fibre 0.1%

Joint Aid PLUS

The Ultimate Joint Supplement for Horses

Presentation: 1kg

Feeding Instructions:

All horses: Feed 40g per day for 14 days, thereafter feed 20g per day.

Composition:	<i>per 20g</i>	<i>per 1kg</i>
Glucosamine HCl	6,250mg	312,500mg
Chondroitin Sulphate	1250mg	62,500mg
Methylsulfonylmethane (MSM)	3,330mg	166,500mg
Excipient to	20g	1kg

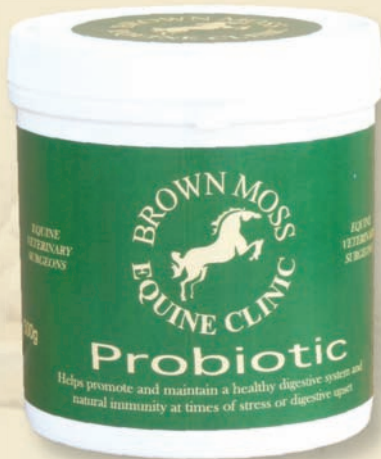

Joint Aid PLUS is a veterinary strength mobility feed supplement which combines the nutritional benefits of Glucosamine HCl, Chondroitin Sulphate and Bioavailable Sulphur. Fed as recommended it will enhance the level of glycosaminoglycans (GAGs) in the joint. These are the building blocks of the cartilage matrix. High levels of Chondroitin Sulphate in the formula act as a “water magnet” in the joint allowing it to withstand constant compression and concussion.

Performance horses are pre-disposed to increased wear and tear on their joints. This can lead to an imbalance between the production and breakdown of cartilage tissue. When the rate of breakdown exceeds the rate of production, cartilage tissue will begin to break-up causing erosion of the cartilage matrix. This can lead to serious problems, such as; osteoarthritis, degenerative joint disease and articular lesions in the cartilage tissue. Joint Aid Plus provides the components necessary for the nutritional maintenance of a healthy cartilage matrix.

Probiotic

*Helps Promote and Maintain
a Healthy Digestive System*

Presentation: 500g

Probiotic is a feed supplement containing high levels of natural probiotics and prebiotics. This product is designed to maintain the balance of beneficial microflora in the gut which will assist digestive efficiency.

The addition of probiotics to a horse's daily diet will maintain digestive efficiency while colonising the gut wall with beneficial bacteria, thus inhibiting harmful pathogens by competitive exclusion.

The prebiotics utilised in Probiotic fructo-oligosaccharides, provide a food source that only beneficial species of bacteria can utilise.

- Helps promote and maintain a healthy digestive system
- A daily source of beneficial bacteria
- Provides a food source for naturally occurring probiotics already present in the gut
- Aids in competitive exclusion of pathogenic bacteria
- Assists in establishing beneficial digestion following antibiotic treatment.

Feeding Instructions:
All horses: 20g daily.
Ponies/Young Horses: 10g daily.

Composition:

ANALYSIS per 1g

500 million viable natural
microencapsulated enterococcus
faecium M74 organisms

Fructo oligosaccharides 500mg

ANALYSIS per 1kg

M74 5x10¹¹ Cfus

Fructo oligosaccharides 500,000mg

Feed Aid

*Provides complete nutritional support
for energy & vitality*

Presentation: 3.75Ltr

Feeding Instructions:

Add to the normal feed ration.

Horses in full work: Feed 60ml daily.

**Horses in light to moderate work
and ponies in full work:**

Feed 40ml daily.

Horses and ponies at rest:

Feed 20ml daily.

Composition:

	<i>per 20ml</i>	<i>per 40ml</i>	<i>per 60ml</i>
Vitamin A	13,333iu	26,667iu	40,000iu
Vitamin D	2,166iu	4,333iu	6,500iu
Vitamin E	2,166iu	4,333iu	6,500iu
Vitamin K	3mg	7mg	10mg
Vitamin B1	23mg	47mg	70mg
Vitamin B2	20mg	40mg	60mg
Vitamin B6	10mg	20mg	30mg
Vitamin B12	40mcg	80mcg	120mcg
Biotin	0.5mg	1mg	1.5mg
Folic Acid	17mg	33mg	50mg
d-Pantothenic Acid	20mg	40mg	60mg
Niacin	50mg	100mg	150mg
